

Default Universe

Black bodies dying

But I never shed a tear

Black mothers crying

But I never want to hear

Voices now hiding

But I never end the fear

Churches burning

But I never want to love

Hashtags in my mind

Blood on the walls

Fog in my mind

Uterus expanding

People floating by

Words fast

Words slow

Time gone

Me

Who

Psychosis what?

No one told me

No one ask me

Black bodies' dyeing

Black mothers crying

Black babies' rising
